

The Adult classes at The Performing Arts Center are open to any dancer starting from 16 years old. As with all of our classes and each artist put in our care, our collective desire is to not only conduct a superb class but, by putting the student first, both challenge and nurture each artist as they seek to develop all of their potential. As we have the tremendous fortune to have a staff of working professional Dancers and Director/Choreographers, we pledge that for any artist who is serious about their craft, we will do all we can to insure that each takes the next step on their artistic journey.
